🏛 Education

Official Education

School (2013 - 2020)
Vinnytsia school of General Education No. 18
Lyceum (2020 - 2024)
Podilskyi Scientific and Technical Lyceum
Graduated with Gold Medal
Undergraduate education (2024 - 2028)
Kyiv School of Economics
Bachelor of Artificial Intelligence

💼 Employment and Experiences

Translator (NOV 2024 - JAN 2025)
Khan Academy
Translated study materials on Khan Academy (in collaboration with Ukrainian Khan Academy team) platform from English to Ukrainian for free access to education in Ukraine.

Technical Prototyping Lead (NOV 2025 - JAN 2026)
Freelance
• Rapid MVP Development: used AI engineering tools (like Cursor) to build a functional prototype of an ordering platform.
• Database Architecture and Logic: designed and implemented a relational database structure, ensuring efficient data flow for search functionality and page loading time.
• Data Driven Quality Control: used SQL and Python for data level analysis to monitor and debug automated cron jobs, fixing logic issues and ensuring correct database updates.
• Cloud Infrastructure Management: managed deployment and maintenance of the production environment on the Render cloud platform.

💼 Known Tools and Concepts

Programming: `Python C++ C#`

Data: `SQL R Tableau`

Tools: `Git`

Concepts: `Algorithms and Data Structures Database Management Machine Learning Discreet Math and Logic`

🔤 Languages

Ukrainian 100%

English 85%

⭐ Qualities

- Adaptability
- Teamwork
- Dedication
- Open-mindedness
- Readiness to learn
